

New Fraud Prevention Service Starting June 8, 2016

In our continuing efforts to keep your accounts secure, we've improved our alert system for potential fraud. Here's how it works:

1. When potential fraud is detected, you will receive an automatic email notification.
2. After the email, you will receive a text alert.
3. If there is no response received, you will then receive automatic phone calls.

Remember – our messages will *never* ask for your PIN or account number.

For more information, log in to Online Banking or contact us at (603) 310-7200.
